SETTING BENCHMARK  FOR HIGHEST PERFORMANCE

LENGTH GRADER

TOLL FREE :1800-102-8431

WWW.MILLTECMACHINERY.COM

MILLTEC Length grader has rotating indented Cylinder to separate broken or shorter grain from whole grain by virtue of length. As the cylinder rotates, the shorter grains gets lifted until a point where the grain is dislodged by gravity in a collection trough & discharged through screw conveyor.

The full grain length remains at the bottom of the cylinder and travels to a separate discharge outlet

• Features / Advantages:

- Tear drop shaped indents for higher accuracy of separation.
- Modular construction of cylinders, one above the other to save space.
- Easy maintenance and minimum operating cost.
- Inbuilt Self-Cleaning mechanism to ensure optimum Separation.
- The machine is equipped with sampling ports at the out lets to monitor the degree of separation.

• Technical Specifications

Machine Type	RLGA1		RLGC1/3		RLGB2/2		RLGD1/6	
CAPACITY(TON/HOUR) with pre cleaner	Medium Grain 2.5 -3	Long Grain 1.5 -2	Medium Grain 2.5 -3	Long Grain 1.5 -2	Medium Grain 4- 5	Long Grain 2.5 - 3	Medium Grain 1.5 - 2	Long Grain 1 - 1.2
GEAR MOTOR POWER: HP/KW	2/1.5		2/1.5 -2 Nos		2/1.5 -2 Nos		2/1.50 -3 Nos	
VOLTAGE(V)/ FREQUENCY(Hz)	415/50		415/50		415/50		415/50	
WOKING RPM	38		38		38		38	
CYLINDER SCREEN DIAMETER XLENGTH (mm)	700X3080 -1 No		700X2580 2 No		700 X 2580 -2 No		"700 x3080 -2 No 400 X1050 -1No, 600 X 1545 -1No, 750X725 - 1No, 750X7250 - 1No,"	
WEIGHT (kg)	650		1200		1200		2200	
OVER ALL SIZE -LxWxH (MM)	4369X1070X1380		4562X1250X2424		3934X1250X2424		5090X1256X3347	

NOTE : Unless otherwise specified capacity (TON/HOUR) should be considered for Paddy only
