MILLTEC Water Jet (Silky) Polisher machine is used for polishing the rice surface by spraying water through the mixing chamber and by creating friction among rice grains using milling rollers. The weight controlled outlet of the polisher controls the retaining time of kernels inside the milling chamber. The water Jet (Silky) polisher produces rice grains with a shiny surface finish.

• Features / Advantages:

- PLC controlled automation system
- Water & air mist nozzle at shaft
- Intergrated humidifier system with complete enclosure
- sieve frames with rod hine
- Replacement of motor outside the machine for easy maintenance
- Reduced machine height for sturdy operation

• Technical Specifications

Machine Type	RWPC-1	RWPC-2	RWPD-2	RWPF-2
Capacity TON/HOUR	2 - 5	2 - 6	6 - 8	8 - 10
Motor Power HP/KW	50-37.5/60-45	60-75/45-56	100HP(960/1440rpm)	120HP(960/1440rpm)
Voltage (V)	415-3ph	415 - 3Ph	415 - 3Ph	415-3ph
Aspiration (CMM)	50CMM @ 150WC	50cmm @ 150wc	75CMM @ 150WC	100CMM @ 150WC
Weight (KG)	1220	950	1050	1960
Over All Size LxWxH (MM)	2595x700x1675	2910 x 1410 x 1745	2200 x 800 x 2000	2300 x 800 x 2100
